In its seventh year, this 32 draw tournament welcomes juniors from throughout the United States and is the only national junior competition devoted solely to doubles. Pate Academy Girls 14s doubles partners Piper Charney and Alice Otis took to the clay and were top finishers in their age division with each receiving the USTA's coveted gold ball. Congratulations Piper and Alice.

### Sustainability Initiative

Here at LTP at the Daniel Island Tennis Center, we are pursuing a renewed interest in our environment through an educational emphasis first on sustainability. We enlist your participation by utilizing the blue recycle bins located in the Pro Shop and outside both Clubhouse entry doors for disposing of all plastic bottles, cans, and cardboard used while onsite. We will continue our initiative in support of the **Ronald McDonald House Charities** by requesting that all tennis ball pull tab lids as well as any aluminum pop tabs from soda cans or canned goods be dropped off inside the Pro Shop so that the RMHC can benefit from checks they receive from recycling centers. Be a part of the solution of waste mismanagement by recycling more.
